

Area Manager

Job Description

At Amazon, we're working to be the most customer-centric company on earth. To get there, we need exceptionally talented, bright, and driven people.

Amazon is seeking Area Managers for our Fulfillment Centers (FCs) throughout the United States. Amazon is one of the most recognizable brand names in the world and we distribute millions of products each year to our loyal customers.

Four key areas that you'll always focus on are the safety, quality, customer experience, and productivity of your department.

- Review the work forecasts and determine your productivity requirements to produce during the day to meet the overall building objectives.
- Partner with other Area Managers to balance labor ensuring that you are operating a balanced and efficient shift while meeting all of your goals.
- Support all safety programs and OSHA compliance to ensure a safe work environment for all associates.
- Proactively identify and lead process improvement initiatives and Lean tools

Supervisory Responsibilities:

You and your team of warehouse associates are responsible for getting Amazon customers their orders. You are responsible for ensuring that you have properly trained people, and that their needs are addressed so they can focus on their jobs.

In addition, one of the most important aspects of your job is to lead change at internet speed..... innovation has made us the global company that we are today.

Additional Job Elements:

- Lift and move totes up to 49 pounds each
- Regular bending, lifting, stretching and reaching both below the waist and above the head
- Walking in the FC and around area with great frequency; facilities are over a quarter mile in length
- Continual standing and/or walking an average of 5 miles daily
- Ability to work in construction /distribution environments that may be noisy, unlit, unheated, not air-conditioned
- Able to access all areas of building (ascending and descending ladders, stairs, gangways safely and without limitation)

Basic Qualifications:

- A completed Bachelor's Degree from an accredited university or 2+ years Amazon experience
- Direct management experience for employees and their performance
- Experience with performance metrics and process improvement (how, when, who)
- Candidates must be flexible to work weekends and/or overnight shifts regularly

Preferred Qualifications:

- Degree in Engineering, Operations or related field is a plus
- 3+ years management experience in a manufacturing, production or distribution environment
- Management of a minimum of 15 employees (including payroll, performance management, work-flow assignment)
- Interest in long-term career development through assignments in multiple FCs across the nation.

Amazon offers competitive packages, growth potential and a challenging and exciting work environment. Visit www.Amazon.com/careers for more information.

Operations Manager

Job Description

The Operations Manager has complete responsibility for inbound operations, outbound operations or a functional process responsibility within the fulfillment center on a specified shift or across multiple shifts.

Responsibilities

- Lead and supervise a team of Area Managers (2-5 front-line supervisors depending on location) and 100-300 hourly associates in outbound or inbound operations within the Fulfillment Center.
- Responsible for the overall safety, quality and performance and customer experience of the shift.
- Carry out supervisory responsibilities in accordance with the organization's policies and procedures.
- Accountability for meeting and exceeding operational goals.
- Strategic planning and forecasting; appraise performance; reward and discipline employees; resolve problems; and address staffing needs.
- Mentor, train and develop teammates for career progression and learning
- Ability to develop and share best practices across the shifts and network.

This position requires a candidate with the proven ability to drive process improvements and the ability to keep pace with our explosive growth while motivating others to meet the challenges of an extremely deadline-driven environment.

Additional Job Elements:

- Lift and move totes up to 49 pounds each
- Regular bending, lifting, stretching and reaching both below the waist and above the head
- Walking in the FC and around area with great frequency; facilities are over a quarter mile in length
- Continual standing and/or walking an average of 5 miles daily
- Ability to work in construction /distribution environments that may be noisy, unlit, unheated, not air-conditioned
- Able to access all areas of building (ascending and descending ladders, stairs, gangways safely and without limitation)

Basic Qualifications

- A completed Bachelor's Degree from an accredited university or 2+ years Amazon experience
- Direct management experience for a salaried employee population and its performance
- Experience with performance metrics and process improvement and Lean techniques (how, when, who)
- Candidates must be flexible to work weekends and/or overnight shifts regularly

Preferred Qualifications

- Degree in Engineering, Operations or related field and MBA preferred
- Experience with a contingent workforce during peak seasons
- Ability to handle changing priorities and use good judgment in stressful situations
- 5+ years management experience in a manufacturing, production or distribution environment
- Interest in long-term career development through assignments in multiple FCs across the nation.

Amazon offers competitive packages including comprehensive health care, 401(k), restricted stock units, growth potential and a challenging and exciting work environment.
